

Dear Parents,

Teach your Monster to Read is a free game which helps children to master a strong foundation of reading. It's been created by the Usborne Foundation, led by Peter Usborne (of Usborne Publishing)

We're using it at school this year, and your child will benefit if they can play the game at home, too. It's free, and it's really easy to log in.... Just use the details below.

*Note that this version of the game only works on a computer. An iPad App of the first game is available on the website, but won't be linked to this account. An Android version will be added by the end of 2015 and it will not be linked to your child's school account either. The iPad and Android Apps do cost to download. However; the computer version online will always be free to play. This is a VERY COOL game for the children to play to build strong foundations in reading. Not to mention, the boys and girls will LOVE it!!!

Enjoy!
